Embroidery Design

**Materials**
- Embroidery loop
- 8 in x 8 in fabric squares
- Needle
- Embroidery Floss
- Marker or Pencil
- Scissors
- Fabric Glue

**Directions**
1) Pull fabric through the embroidery loop frame securely so that the fabric is taut

2) Create your original design using a pencil or use a design template to trace on an image with a marker.

3) Thread the embroidery floss through the needle, tying a knot at one end.

4) Start your stitching from the underside of the loop and pull the needle through the fabric.

5) When you’ve completed your design, trim the excess fabric around your loop, leaving 1/2 inch of fabric around the circle
### Back Stitch

- Embroidery loop
- 8x8 fabric
- Needle
- Embroidery floss
- Marker or Pencil
- Scissors
- Glue

### Running Stitch

- A running stitch is the simplest stitch and will give you a dashed line appearance.

- A back stitch is a simple outline stitch that makes a solid line

- Make sure to tie a double knot on the underside of your loop every time you change threads

- Glue the remaining fabric to the underside of the loop to create your finished, framed piece
